Scholarships

## Academic Scholarships at Year 3 (7+)

St Mary's School invites all students considering entering Year 3 in the next academic year to apply for an Academic Scholarship.

A scholarship is awarded to a girl in recognition of her all round academic potential, regardless of financial considerations.

Applicants will sit the scholarship examination, which consists of papers in English, Mathematics and Non-Verbal Reasoning. For external applicants a supporting testimonial from the candidate's current Headteacher that they have the necessary aptitude for academic study is an essential part of the selection process.

It must be stressed that scholarships are awarded for academic excellence and, therefore, if in any year there should be no candidates of sufficient ability, scholarships will not be awarded. Equally, if a number of candidates of exceptional ability are deemed worthy recipients, the scholarship may be divided between them. Scholarships are for up to 30% of the fees for each year up to and including Year 6.

Scholarship application forms and important dates can be found on our website under Admissions, Scholarships and Bursaries. External candidates will also need to submit a registration form and include a registration fee of £100 to be sent to the Registrar (email: [registrar@st-marys.bucks.sch.uk](mailto:registrar@st-marys.bucks.sch.uk)).

## Art Scholarships at Year 7

The Art Scholar should become an enthusiastic participant in the creative life of the school; showing leadership qualities, initiating creative ideas or activities and internal applicants should be a regular member of the weekly Art club. It is anticipated that she will follow a GCSE Art and Design course.

### Candidate Assessment Process

A student wishing to apply for an Art Scholarship should demonstrate:

- Excellent drawing and observation skills.
- A genuine passion and enthusiasm for the subject.
- Knowledge of the work of other artists.
- Imagination and creative risk taking.
- The ability to use a range of media and techniques to a high standard.

The Department will assess these criteria through:

- The presentation of a portfolio of work.
- A research project around the provided theme.
- A one hour practical test relating to the theme of research.
- An interview with the Head of Department.

## The Art Portfolio

Due to high numbers of applicants, applicants will be shortlisted based on their portfolio of work. Candidates who are invited for examination and interview will be notified in writing.

### What to include

- The purpose of the portfolio is to display the creative strengths and skills of your daughter; she should aim to show as broad a range of her abilities as possible. She should be selective about what is included; this is about quality over quantity.
- There is no minimum or maximum limit on the amount of work expected; however it is advised that the work needs to be portable by your daughter, so please ensure she can carry it.
- If your daughter has produced work in three dimensional form, or work that is larger than A3 in size, photographs of this work are perfectly acceptable.
- She should try to show a range of working skills, i.e. materials and techniques she is comfortable using, as well as varied scales of work.
- You may include work that she has produced both under teacher/tutor supervision as well as work that she has produced for pleasure at home.
- Sketchbooks are not always used within primary schools; however if this is something that she has readily available, we would like to see these as well.
- Work in the portfolio does not need to be specially mounted in any way.
- Please ensure that all work brought to St Mary's is labelled with your daughter's full name.

## Examination

Shortlisted applicants who are invited to interview will be expected to prepare a research project based upon the given theme: Organic Forms.

The Examination will be held in the Senior House Art Studio and will last 60 minutes. All examination preparation work and examination pieces are to be left at school for marking. The work will be ready for collection within a week.

Your daughter is permitted to explore this theme within her own fields of strength; she may use any materials available to her. She is required to produce preparatory work for the examination; **a minimum of two A3 pages** is expected. We would like her to consider these four areas within her preparatory work and her finished piece.

- Idea development: relevant research and originality of ideas.
- Use of materials: exploration, experimentation and application.
- Recording of ideas: presentation and annotation of her work development where appropriate.
- A final outcome in relation to her exploration of ideas.

She may have all preparatory work in the exam room with her. If your daughter is selected to attend the Art Scholarship examination, you will be asked to inform the school of the materials she intends to use in advance, so that provisions can be made to have sufficient materials available. She is, of course, permitted to bring her own materials to work with her if she prefers.

For the examination, the applicant will take a practical audition at the school which will consist of a group workshop with other applicants and the presentation of a monologue. This monologue should be chosen by the applicant and prepared prior to the audition day. The Head of Drama can provide some monologue examples if required.

The applicant should be an enthusiastic participant in the dramatic life of the school, showing leadership qualities and influencing other pupils.
